THE TOURIST INDUSTRY IN LATIN AMERICA:
A BIBLIOGRAPHY FOR PLANNING AND RESEARCH

by

Robert C. Mings
Associate Professor of Geography
Arizona State University

PREFACE

The tourist industry in Latin America has experienced dramatic growth since the early 1960's. The voluminous change that has accompanied this unprecedented expansion is of special interest to planners and social scientists. The purpose of this bibliography is to bring together information useful in the study and future planning of tourism in Latin America. An attempt has been made to include only those references likely to contain substantive data.
